## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." See e.g. pg. 3, lines 14-17. Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

### ***Specification***

2. The disclosure is objected to because of the following informalities: "it's" on pg. 1, line 10 should be – its --. A thorough check of the entire Specification is recommended. Appropriate correction is required.

### ***Claim Objections***

3. Claims 1 and 24-25 are objected to because of the following informalities: in claim 1, we should probably see "...determining all of [the] systematic error coefficients for all of the ports of [the] N-port multiport test system", and in claims 24-25, we should probably see "...a controller that biases [a] predetermined [number] of a plurality of switching devices...". Appropriate correction is required.

***Allowable Subject Matter***

4. Claims 1-26 are allowable over the prior art of record. The prior art of record does not suggest or disclose the claimed combination of method steps or apparatus elements, most particularly the claimed "method of calibrating an N-port multipoint test system for measurement of a DUT...consisting of: ... coupling each port of an N-port automatic calibration device to a respective port of the N-port multipoint test system; presenting three reflection standards with the automatic calibration device to each port of the N-port multipoint test system; providing with the automatic calibration device, N-1 through conditions of a possible  $N(N-1)/2$  possible through conditions, between corresponding ports of the N-port multipoint test system; making measurements with the N-port multipoint test system of the three reflection standards at each port and the N-1 through conditions between the corresponding ports; and determining all of [the] error coefficients for all of the ports of [the] N-port multipoint test system."

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See the attached PTO-892. Though not prior art, most notable

are **Adamian et al.** ('848 B2) and **Ad[a]mian et al.**('237 B2), commonly owned, and with effective priority the same as the instant application.

7. This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
